

**WILL ELRICK**

I believe as your candidate, standing up for The Clarence Greens Group in the next Clarence State Election I would be your voice. I would not take this role as a Greens Candidate lightly and will endeavour to do my best to push through The Greens Four Pillars, Ecological Sustainability, Grassroots Democracy, Social Justice and Peace and Non violence.

Having completed my degree in Agroecology, I feel I have the necessary skills and knowledge to fight for sustainable agriculture in the Clarence Electorate. We need a cleaner healthier water catchment for our biodiversity at all levels.

I am deeply concerned and passionate about the ever pressing environmental issues that are not being addressed by our politicians, such as Climate Change, the plight of the farmers on their land, lack of affordable housing, ongoing threats to damming our river, building a mega-port on the Clarence and dealing holistically with the Maclean Flying Fox Colony fighting for a new High School and revegetation of the bats habitat. The Cobalt Mine and healthy ecology based agriculture helping push the region to better agricultural management practices and a healthier happier valley.
