

GREENS SENATOR

**JORDON
STEELE-JOHN**

FOR WA

*We acknowledge the Whadjuk
Nyoongar people as the original
custodians of this land.*

*We pay our respects to their
elders past, present and future.*

MEET JORDON

Jordon is not a typical politician. He entered politics by chance last November and in that short time he's really shaken the place up; he is exactly the kind of person the establishment want to keep out. Jordon understands what it's like to struggle to make ends meet and he knows we're sick of the major parties putting their self-interest, and the interests of their corporate donors, ahead of all of us who they are supposed to represent.

Our community is made up of hardworking, compassionate people from so many different backgrounds, yet our Parliament doesn't reflect the diversity or our shared values. Over the last decade, Jordon has spent his free time out in the community engaged and involved in local campaigns fighting for a better future for all of us. As your representative for WA, Jordon will listen to the community and always prioritise our needs because he isn't in the pocket of the big end of town.

Now, more than ever, we need the Greens in the Senate to hold the major parties to account and keep them honest. Our movement is dedicated to fighting for the needs of our community and building a better future for all of us. Jordon is a frank and fearless representative for WA. With him in the Senate, we'll have a voice that represents all of us, not just the wealthy few.
