

AUSTRALIAN GREENS RESOLUTION ON BOYCOTTS, DIVESTMENTS & TARGETED SANCTIONS

That the Australian Greens:

- Acknowledge Australia's history of cultural, consumer, sporting and labour movement boycotts as a legitimate, non-violent political expression in support of national liberation, health, human rights and environmental causes.
- Support the application of targeted sanctions, boycotts and divestments by the Australian Government when they are strategic and human rights-aligned and one or more of the following criteria are met:
 - The grave repression of the human rights or democratic freedoms of a population by a government
 - The proliferation of weapons of mass destruction
 - Internal or international armed conflict
 - Genocide, ethnic cleansing, crimes against humanity or the perpetration of war crimes
 - State-sponsored mass violence
 - In the event of a military coup

These criteria should serve to assist the deliberations of the Australian Greens and of the Australian Greens Party Room when considering calling for the application of targeted sanctions, boycotts or divestments against:

- Government or state officials
- State entities
- State-affiliated or state-funded entities and/or;
- Corporations, entities and organisations that profit from or are complicit in the violation of human rights.
