

AUSTRALIAN GREENS RESOLUTION

Burma

Adopted November 2010

Principles

That the Australian Greens National Conference 2010 notes that on Sunday 7 November the Burmese regime is conducting a sham election based on a flawed constitution and corrupt electoral process; and calls for:

- The immediate release of Daw Aung San Suu Kyii after 15 years of house arrest;
- A full trade embargo as called for by the Burmese pro-democracy movement;
- That Australian Government to not recognise the results of the election, and to support the genuine democratic aspirations of the Burmese people.
