

# A LIVEABLE TOWN, FOR EVERYONE.

Alice Springs is full of great small businesses, artists, innovators and community initiatives. Jodi is committed to being a voice for all members of our community to make sure town development reflects what our community wants and needs.

## A vote for Jodi is a vote for a Councillor who will:

- Listen to the ideas and concerns of our community;
- Speak up for the members of our community whose voices are not always heard;
- Make sure that the ideas, opinions and wishes of the Arrernte custodians of Mbantua, Alice Springs, are heard and respected on Council;
- Invest in public art to make our town centre a beautiful and enjoyable space for everyone;
- Introduce reforms to ensure that vacant buildings do not just sit unused, but are opened up for the community;
- Invest in bike paths and bike storage facilities so that everyone can get around town cheaply and sustainably.

# STANDING UP FOR A FRACK-FREE ALICE SPRINGS

## PROTECTING OUR LAND SAFEGUARDING OUR WATER

Protecting our water is crucial for the growth and prosperity of Alice Springs, and the natural environment in which we live. That's why Jodi and the Greens are committed to a frack-free Alice Springs.

Our water supply is under threat from fracking and unconventional gas. Over 90% of the Northern Territory is reliant on our underground water sources. Why would the NT Government risk our health and livelihoods with fracking?

- ✓ Invest in cheap, clean energy for our community
- ✓ Say no to fracking
- ✓ Safeguard our land and water for the future

## A VOICE FOR WOMEN

Women make up 51% of people in Alice Springs - they should be involved in making the decisions that affect their lives.

Jodi is running for Alice Springs Town Council so girls and women have someone in Council they know will take their ideas and concerns seriously, and make sure they are never shut down or ignored.

**“ She is a voice for women in the community who have concerns about the direction Alice Springs is heading, and have ideas about how to make our community even better. ”**

## INVESTING IN OUR YOUNG PEOPLE

Our young people belong in our community, not in prisons. For too long we have imposed policies and punishment on young people, and it's not working. We all want our young people to be happy, healthy and safe. Jodi understands that we must work with young people and their families to come up with strategies that make sense in their lives.

**We all want our young people to be happy, healthy and safe.**

On Council, Jodi will listen to young people and their families about what services, activities and facilities would make a difference in their lives. Jodi will fight for long term resourcing of youth support services, after hours activities like midnight basketball and dance and music nights to keep kids safe after dark.

Jodi believes that we need to work with kids to keep them engaged and learning - not push them out of our community.
