

AUSTRALIAN GREENS RESOLUTION

East Timor

Adopted October 1994

Principles

The Australian Greens:

We condemn the Australian Federal Governments' support of Indonesia's annexation of East Timor and Irian Jaya and that we call for; the immediate release of all political prisoners, including Xanana Gusmao, withdrawal of Indonesia's military forces, open access to Timor for non government human rights organisations, and a UN supervised referendum of East Timorese people to decide democratically on their preferred future.
