THE GREENS

OUR PLAN FOR SOUTH AUSTRALIA

PROTECTING THE ENVIRONMENT

The Greens are committed to creating an ecologically sustainable future. We want to ensure that future generations can enjoy a world as rich and complex as the one we currently enjoy.

ESSENTIAL SERVICES IN PUBLIC HANDS

The Greens believe that essential services belong in public hands, where they can be provided for the good of all South Australians.

A FAIRER FUTURE FOR ALL

The Greens are committed to providing a fairer future for all South Australians. The economy and public services must work for the good of everyone, not just a few.

WE WILL:
- Invest in a clean energy future powered by 100% renewable energy
- Eliminate dirty gas
- Waterproof our state and protect the Murray River
- Oppose nuclear waste dumps in SA
- Properly resource our emergency services to manage bushfire risk
- Ban fracking to protect our land and water

WE WILL:
- Create a state-owned electricity retailer for low-income South Australians
- Restore TAFE as a publicly owned and controlled education provider
- Invest in public health to improve outcomes across our state
- Provide universal dental care
- Invest in public transport and cycling infrastructure, not just more roads

WE WILL:
- Create a strong public education system for all, regardless of income
- Rescue our critically underfunded Community Legal Centres
- Provide further workplace protections to keep workers healthy
- Bridge the digital divide to bring Internet access to more people
- Invest in services and healthcare for older community members
